

Probability of Having AVR

Sedentary/Lightly Active Moderately/Highly Active

Number at risk

Sedentary/Lightly Active  
Moderately/Highly Active

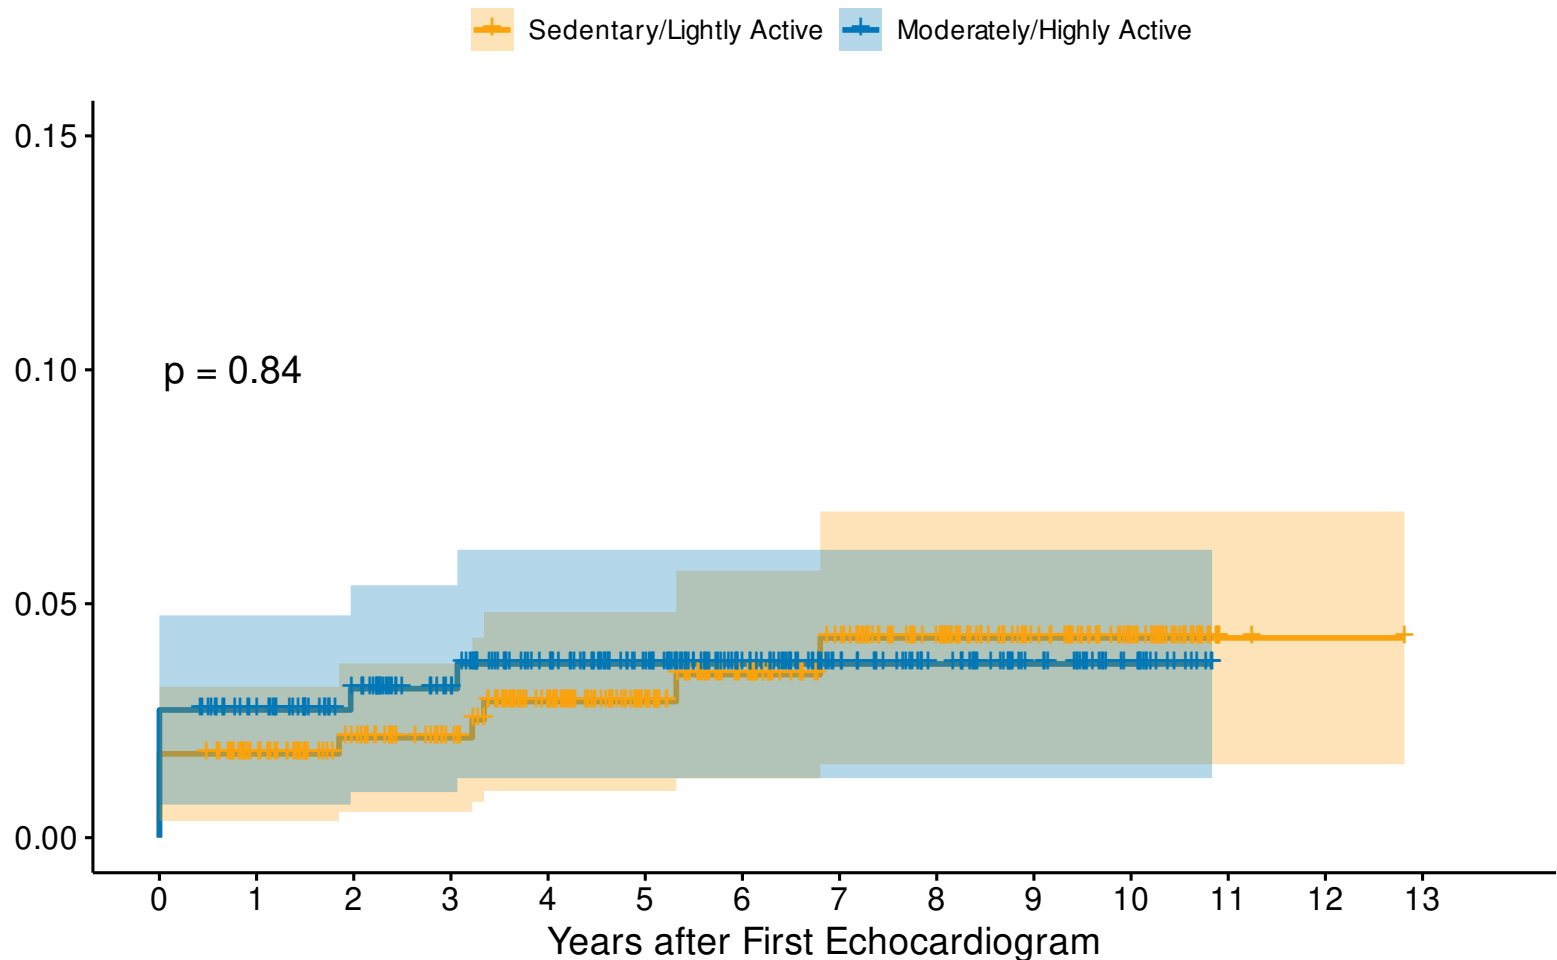

334	258	218	200	172	134	101	79	62	37	22	1
259	199	173	145	121	101	74	51	39	23	11	0
0	1	2	3	4	5	6	7	8	9	10	11

Years after First Echocardiogram

Probability of Having Severe AoDilatation

Number at risk

Sedentary/Lightly Active	338	314	287	265	233	187	152	125	99	68	40	2	1	0
Moderately/Highly Active	260	241	218	192	166	138	102	73	55	34	17	0	0	0
	0	1	2	3	4	5	6	7	8	9	10	11	12	13

Years after First Echocardiogram

Probability of Incurring Composite Endpoint

Sedentary/Lightly Active Moderately/Highly Active

Number at risk

Sedentary/Lightly Active  
Moderately/Highly Active

334	243	211	191	165	129	96	74	56	33	20	1
259	191	162	136	112	93	67	45	33	20	9	0

Years after First Echocardiogram
